Statement Regarding Use of Non-GAAP Financial Measures

This press release uses Adjusted EBITDA and Adjusted EPS, financial measures that are not calculated in accordance with GAAP. We use Adjusted EBITDA and Adjusted EPS, in conjunction with GAAP financial measures, as an integral part of managing our business and to, among other things: (i) monitor and evaluate the performance of our business operations and financial performance; (ii) facilitate internal comparisons of the historical operating performance of our business operations; (iii) review and assess the operating performance of our management team; and (iv) analyze and evaluate financial and strategic planning decisions regarding future operations and annual operating budgets. For a reconciliation of Adjusted EBITDA and Adjusted EPS to the most directly comparable measure calculated in accordance with GAAP, please see below.

We have not reconciled our Adjusted EBITDA or Adjusted EPS guidance to their most directly comparable GAAP measures because we do not and are not able to provide guidance for those GAAP measures due to the uncertainty and potential variability of certain reconciling items, including transaction costs, severance and executive recruiting. Because such items cannot be provided without unreasonable efforts, we are unable to provide the corresponding reconciliations. However, such reconciling items could have a significant impact on our future results.
